“My email is main actionable and your inbox become your to-do list.”

For IBM Domino customers,

Verse On-Premises provides a way to leverage existing server investments while employing the latest innovations in IBM enterprise email.

- Existing customers who are current on S&S for CALS (Client Access Licenses) are also entitled.
- Verse On-Premises is enabled for new customers via the Domino Enterprise and Messaging Client licenses.

Verse On-premises: Mail re-imagined for a new way to work

Mail that understands you

Both cloud- and on-premises enabled, designed for mobile devices, and powered by IBM's analytics and advanced search, IBM Verse works for you, not the other way around.

Less clutter, more clarity

Experienced through a simple, see-only-what-you-need interface, IBM Verse helps you focus on the things that matter most.

Connecting me to we

With an array of intelligent, secure and engaging social apps, IBM Verse opens up new ways to work together.

Connecting me to we

With an array of intelligent, secure and engaging social apps, IBM Verse opens up new ways to work together.

Additional IBM Verse On-premises Value

- Verse On-premises offers consistency with Verse cloud
- Customers can utilize the best-in-class functionality that Verse cloud offers while leveraging existing investments with Domino
- Secure offline access via a browser
- Optionally, no more deploying a rich client like Notes or Outlook for email
- Domino applications “live” in Verse via IBM Client Application Access or IBM Notes
- Integration and extensibility to match future cloud capabilities (e.g., menu actions within Compose; extending capabilities within a business card; and actions while reading mail)
- Reduce training cost with Verse's simple intuitive UI
- Smooths end-user transition to the IBM Connections Cloud experience
